

MAC Track

Non-Coning Traffic Line Paint

MAC Track Traffic Line paint from SWT Group is a high performance, quick drying solvent-based line marking paint that provides outstanding durability under all weather and traffic conditions. **MAC Track** has been formulated with active ingredients that meet most government requirements while providing a cost-effective, long-lasting solution for public and private sector applications.

MAC Track can be used on any asphalt or concrete pavement or building exterior to provide many years of high visibility marking. Typical applications include road and highway lane marking, bike lanes, and parking lot line painting. Although **MAC Track** has been specifically formulated for road line marking applications it is also well suited for any exterior space requiring symbols or demarcation such as hard-court sport surfaces, school playgrounds, airport tarmacs, factory floors, and exterior architectural applications.

MAC Track can be tinted to any colour to meet your individual application, but it is stocked in the standard colours of white and yellow.

Benefits:

- Low VOC formula
- Excellent durability
- Quick dry formulation
- Can be used with or without glass beads
- Available in multiple colours
- Superior hiding power
- Wide temperature application range
- Compatible with airless or air assisted system

Physical Properties (Typical)

Color	White, Yellow, or Custom
Viscosity	80-90 KU, 25 C
Specific Gravity	1.366 g / ml
VOC	<150 g / L
Solids by Weight	69 % +/- 0.5 %

Performance Data

Test	Method	Parameters	Result
No pickup time	ASTM D711		8 min
Hiding Power	Pfund Cypometer		8.4

Application & guidelines

Surface should be dry and free of loose material and or other contaminants. **MAC Track** is available by 5-Gallon pail, 55 Gallon drum or 250 Gallon tote.
